## Remarkable Excitement at Toronto Fears of Another Invasion.

Toronto, C. W., Thursday, April 5, 1866.

The city is greatly excited by the news of the salling of a Fenian expedition, and it is believed that the report of its going to Bermuda is a blind, and that Quebec is the destination of the Fenians.

Information deemed trustworthy has been received here that the Fenians are putting guns in vessels at to this country some sixty years ago.

## Fenianiem in albany.

A. Very large and enthusiastic meeting of Fenians was held in front of the City Hall to-night, at which Mayor Perry of this city presided, assisted by a number of local military celebrities as Vice-Presidents. The stand was handsomely decorated with Irish and American flags, and was brilllantly illuminated by gos, some of the jets being arranged so as to represent a harp. Addresses were made by Gen. Sweeny and Senator Daly of Indiana. Both speakers were hopeful for the cause.

## THE EIGHT-HOUR MOVEMENT.

Mass Meeting at Union-square-Address by Mr. Greeley, Mr. Spencer, and Others-Resolutions, Music, Fireworks, and Enthusiasm.

A mass meeting of the workingmen of New York, Jersey City, and Brooklyn, in favor of the Eight' Hour movement, was held last evening at Union square. Four stands were erected in the vicinity of the Maison Dores, and, in consequence of the mildness of the evening, as well as the interest felt in the under-taking, the attendance was very large. Shortly after 8 o'clock delegations from the different Trades Uniona, with banners, music, torchlights and transparencies, marched to Union-square and took up their allotted positions around the several stands. Shortly after 8 o'clock Stand No. I was organized by the appointment of Mr. John Reid, President of the Workingmen's Union, as Chairman, and Mr. H. A. Mr. SPENCER then read Mr. Brandreth's letter, regretting his inability to attend and fully indorsing the eight-hour movement.

## The Gee Trial at Baleigh, N. C .- Another Adjournment.

RALEIGH, N. C., Monday Night, April 2, 1866. The Gee Trial will, doubtless, as I long ago redicted, continue until the beginning of the Sumn er. It is nearly six weeks since it began, and the Military Commission has sat but 20 days. The Court has been the high reputation in which it is held. - [Providence Journ. seized with chronic adjournment recently, and since the 14th inst. has had but two full daily sessions.

This morning the Commission adjourned on account of the absence of the presiding officer, and also of a material witness for the prosecution, after whom the Judge-Advocate sent an officer to Cincinnati without

Judge Advocate sent an efficer to Cincinnati without being able to compel his attendance. The right of the Court to compel such attendance has been denied by the Secretary of War, and so the matter stands at present, although it is believed the much-required party will certainly be forthcoming next wook.

Only two or three witnesses remain to be examined for the prosecution, and the Judge Advocate declares he will rest the case unless the particular individual be made to give his evidence next week. It is questionable whether the members of the Court will permit another adjournment, as the defense have a number of witnesses here, and could open at any time, though they assert that as to do so would prejudice their case, they decline to produce their evidence until the prognation has closed. cution has closed.

This long detention is a great hard hip to the with

This long detention is a great hard his to the witnesses, some of whom have been here for three months, because they are neglecting important business at home, and their pay for attendance is not sufficient to defray their ordinary expenses in Raleigh.

About 55 witnesses have been summoned in behalf of the prisoner; many of them to testify to his private character while he resided in Florida, where he practiced medicine for a series of years previous to entering the Rebel service. A number of Southern officers of high position will also be called upon to give evidence, to relieve Major Gee, as far as possible, of the responsibility of his position, which, his friends and counsel claim, arose from circumstances that he could not control.

A DEEL IN MISSISSIPPI-The following letter, written in Vicksburg, Miss., March 26, comes with the name of the writer, as an assurance of the truth of his statements. The writer is unknown to us, and we print

As I was going to my gin-house last Saturday morning, one of my servants reported that some white men were fight-ing in the woods; I repaired to the spot and saw six men, two of whom were fighting with swords. As I approached, the tallest of the two struck the other across the face with the blade, then parried and ran him through. He fell exclaiming, blade, then parried and ran him through. He fell excisiming, "Gentlemen, I am killed," expiring in a few mements. The victor quietly wiped the blood from his sword with his hand kerchief, iTwo of the men said, "Colonel, you have finished that Yankee; he is dead; come, let us mount and go; these Yankees will look after their dead friend." A colored boy came with horses. The victor said, "Gentlemen. my friends are in haste to go; is there anything can do for you! I hope you consider this matter has been settled honorably." The party rode off. I learned from an attending physician that the aftray arose from a political quarrel. The victor was an officer in the Rebe army, named Col. Mclver; the siain, Major Tomlins of Ver mont, late of the U. S. A. Volunteers. This is only one of the' many duels occurring here. THE CASE OF MRS. MARY BARTHOLMEW. No. 83 West Forty-fifth-st., New-York.

broke. We thin, watery matter, and other times green bile.

I had the be 'st medical attendance in New York, and my physical strendance in New York, and my physical strends in New Yor class all told a 'e that the ulcerous hole in my side mus be healed or the sile 'aharges from it stopped, or I would die. My physicians awe me calomei or mercury until my mouth became very sore, and several times I was salivated as badly as any one could be without dying under the process. No one could be textured more than I was, and live the best physicians in New-York to attend me, and if they could not help me, no one could. At this time, when I had begun to despair, a friend of mine brought me a SUFDAY MEMOCURY, in which I read the certificate of a wonderful cure of Consumption, the patient having been confined to her bed and apparently in the last stage of the disease, and yet was cured by Dr. Schenck. I would have considered this astrickery or deception, had it not been certified to by many respectable persons, with the indorsement of the Rev. Dr. Dowling. This gave me encouragement, and I was impatient for a consultation with Dr. Schenck, having to wait for Tuesday, one of the days of his regular attendance to patients in this city. It was about the last of July, 1863, when I called on Dr. Schenck, at his rooms, No. 22 Bond et. He said he understood my case, and gave me ail three of his medicines—Pumonic Syrup, Seaweed Tonio, and Mandrake Pills—and within nine days there was great change in my feelings. The hole in my side discharged more than ever; still I fell better, and began te entertain hopes of a ours. I could feel the Palmonic Syrup operating through my blood.

The Seaweed Tonio asted on my stomach in an indescribable. manner; but in a very short time it gave me a very ravenous appetite, but not until I had taken nearly a box of Mandrake Pills. No one could believe that any human stomach could com tain such an enormous quantity of corruption as I discharged. tain such an enormous quantity of corruption as I discharged. It seemed that, for nearly two weeks, nothing but green biles and unhealthy matter passed my bowels. My complexion changed, my skin began to look clear, and to my great astonishment, I found the tumor healing up. I did not know what to think of that, as the doctors told me that if the ulcers healed, my death would be the immediate consequence. I longed for the next Tuesday, to see Dr. Schenok. He said that I was doing well, and that I would soon be as well as ever; and THE PATENT HARD RUBBER NECK TIE AND thanks to kind Providence, this promise has been fulfilled. This day I feel as well as ever I did in my life, although it is only three mouths since my case appeared to be desperate.

All who knew me are astonished at the change. The running ulcer of so many years' continuance is entirely healed, and I have no more of that dull, heavy, sleepy feeling which I used. to experience almost without intermission. I rise in the morning without having a bad taste in my mouth or a furred tongue, and old always have an excellent appetite for my break-fast. I am setisfied no one can speak too highly of Dr. Schenck's medicines and their effects. For my part, ianguage is inadequate to express my gratitude. I feel that Dr. Schenck's medicines, by the providence of God, have been the means of the restoration of my life, for which I shall ever be

been using Dr. Schenck's medicines for Consumption and other diseases of that kind. All of them have been greatly benefited. I make this public statement in order that the thousands who suffer from diseases similar to mine may be induced to try Dr. Schenck's invaluable medicines. Do not induced to try Dr. Schenck's invaluable medicines. Do not think, as I did, that if your favorite doctor cannot help yet no one cam. I would advise every consumptive person to go and see Dr. Schenck, and follow his prescriptions. Take his advice, at least, if you do not take his medicines. It is encouraging to hear the people conversing in his rooms and describing the benefit they have received from his treatment. Their looks show that they have no deception in them. They are all anxious for help, and are being helped. I wish all whe were affilieded as I was to call and see me, for I feel that I can satisfy every one of them that this statement is not experses.
